
(a) Student weight production
Labeled training set
Base student training
teacher fitting
Historical unlabeled inputs
Structured teacher targets
405 competition trials
cached trial inputs
Student adaptation
Deployable bundle
student + pose weights
(b) Input preparation
load student weights
New raw trial
IR
Skeleton
IMU
Input preparation
Visual clips + motion inputs
load pose weights
(c) Trial-level prediction
Compact multimodal student
40-class logits
Argmax
Activity label
One prediction per classified trial
